1. I have attached a rough outline of what we think our report will contain and a copy of the data sheet we are asking sponsoring components to complete and submit to us.

2. In your case, you will probably need a number of data sheets to cover all of your projects, i.e., conference facility, housing, water line replacement, etc.

3. I believe all of the fields are self-explanatory except Program Links. You might think of this as program requirements. It is intended to identify what other budget and program elements are impacted by a decision to construct or not construct. An example might be the CT program, which could be inhibited by failure to build training facilities.

4. I will be down on 12/13 November for a conference and would like to stop by 12 November a.m. to review your program with you. I will call ahead to set up an appointment.

Thanks,
